

Waste management is more than simply the removal of rubbish from your site, it's about scheduling, time management, cost savings and efficiencies.

Kartaway offer a full service and their Consultants will work with your organisation to provide waste stream management including customised recycling programmes or design of tailor made equipment, where required.

Kartaway clients can be assured of the most up to date equipment and management practices. As leaders in the waste management industry Kartaway focus on your business needs, the environment and the future. For a complete analysis and expert advice call **1300 362 362** to arrange an onsite visit.

Leading Environmental Management

The Right Solution

Kartaway offer a wide range of waste management solutions. Providing flexibility, a full range of bins and skips with complementary services such as compaction units and rear lifts, Kartaway manage your waste stream on time, on schedule and on budget.

- A full range of bins and skips for all purposes
- A modern, well maintained vehicle fleet with professional, expert drivers
- Service from initial design and execution of waste strategies to ongoing placement and service
- Australian coverage – Melbourne, Sydney, Canberra, Adelaide and Queensland
- Over 100 year of experience and expertise servicing the building industry
- No delay – real time communication and response
- Specialist programmes for specific waste removal (eg: shopping centres, asset management, industry specific)
- Strong commitment to environmentally sound practices
- High level of recycling – Green Star Certification
- Customised recycling programmes
- Australian owned and operated

Equipment To Suit All Purposes

Kartaway bins, skips and trucks suit most purposes and work environments, providing a range of flexible solutions.

Bin and Skip Sizes
