# Space Saving Solutions

When the volume of waste outstrips your space, we have the solution The Kartaway CP50 Compactor Unit. We offer a totally managed service, with empty bins replacing full bins at changeover.

We do daily to weekly pickups – to suit your requirements. We understand your needs and work closely with you to provide a waste management programme that is efficient, reliable and cost effective with minimum disruption.

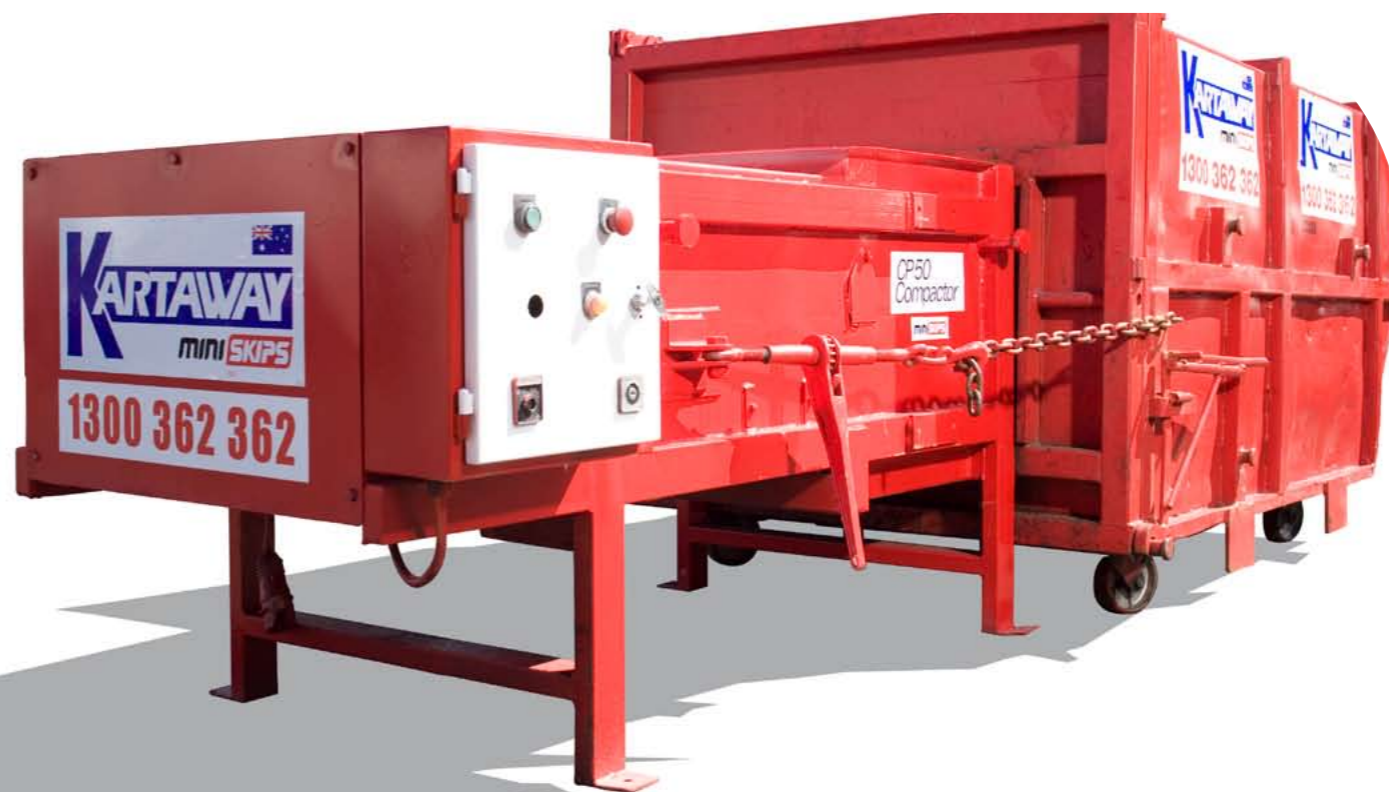

- Industry specific programmes for specific waste removal
- No delay – real time communication and response
- Strong commitment to environmentally sound practices
- High level of recycling - Green Star Certification
- Customised recycling programmes
- Australian owned and operated

The CP50 Compactor Unit provides an efficient waste removal solution. Larger units can be custom made.

Our current, late model fleet are radio controlled to ensure prompt delivery and change over.

## Customised Support

With over 100 year's experience in the industry we are uniquely positioned to support the maintenance management of body corporates, shopping centres, schools and food courts, to name a few.

The sealed units reduce health risks and compacting reduces volume by 5:1 making the compactor unit the right choice for waste removal in highly populated areas. The full size of the unit is only 4383mm L x 1390mm H.

Specifically designed maintenance programs ensure the best efficiencies whilst adhering to current OH&S regulations. Kartaway offers excellent customer service and competitive pricing.

- Compact
- Easy
- Efficient
- Affordable

# Efficient Loading

We assist you with the most cost effective and practical way to load your waste. Use one of the methods below, or we can design a customised loading system to suit your needs.

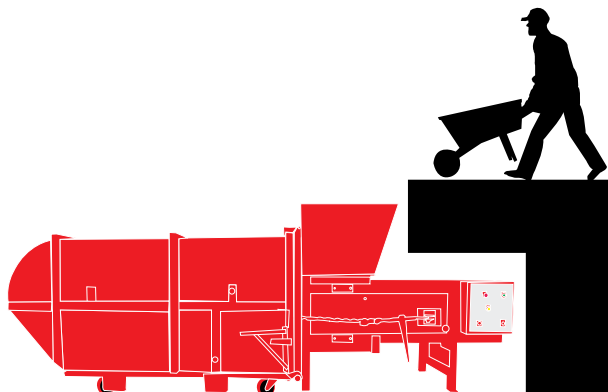

## Side Lifter

For transfer from 240 litre plastic bins. An hydraulic side lifter automatically lifts and empties each bin.

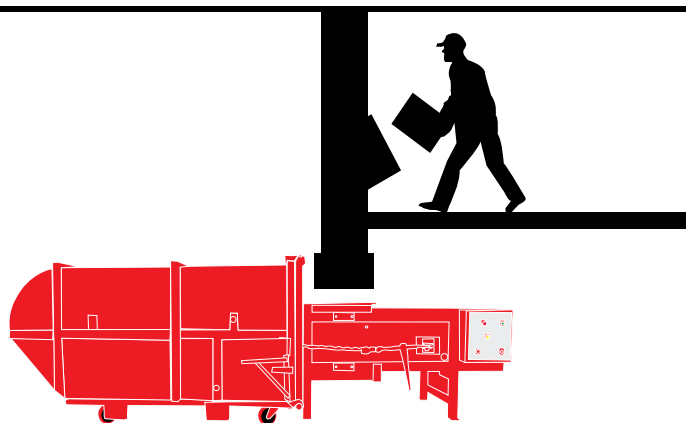

## Hand Loading

Loose or bagged rubbish can be placed straight into the bin.

## Dock Download

For simple unloading of hand trolleys.

## Chute Feed

For locations with a number of rubbish sources, such as multi-storey buildings.

Kartaway are leaders in the waste management industry, we focus on your business needs, the environment and the future. For a complete analysis and expert advice call
